2030 Task Force Update & Other Projects

Please accept my heartfelt appreciation to everyone who has reached out to my family with kind expressions of sympathy for the recent passing of my mother.

The April meeting of the Board of Selectmen featured a presentation by the 2030 Task Force and consultant Pirie Associates to outline a preliminary vision and placemaking plan for the commercial/business district. I encourage you to view the WGATV recording of this portion of the meeting on YouTube to learn more. The Selectmen voted unanimously to endorse the concepts presented and asked the Task Force to schedule presentations to Town boards and commissions to begin rolling out this preliminary vision for transformation of this area. With the goal of growing and ensuring a healthier Grand List by 2030, the Task Force previously gave a presentation to interested residents and business owners regarding connectivity in the business district, with the goal of maximizing grant opportunities. Please stay tuned for more information on this exciting work.

Also at the meeting, the Selectmen received an update regarding the work of the Town Building Committee for Beecher Capital Projects which is in the process of advertising for and hiring architectural and civil engineering services. The committee is overseeing the replacement of portions of the roof and exterior grounds work to address water incursion at the school among other needs. It is important to keep in mind the timeframe for this project which is slated for completion during the summer of 2024. In the meantime, the committee has urged the Woodbridge Board of Education to take the necessary interim steps to correct leaks and limit water damage to the greatest extent possible between now and the start of capital project work in mid-2024. You may keep up to date on the work of this committee by reviewing meeting agendas and minutes at the Town website.

The budget process can be challenging and requires diffi-

cult decisions to arrive at a budget that balances support for valued services with tax levels that are fair and reasonable. Thank you to the residents who have participated in the budget process to date. We now look forward to the Annual Town Meeting, which will take place at Amity High School on Monday, May 15 at 7:30 pm.

In December of 2021, the U.S. Environmental Protection Agency revised the Lead and Copper Rule (LCR) with new regulations intended to protect public health. Based on those revisions, the

Regional Water Authority (RWA) will launch a new project in the coming months as it begins to look at water connections from RWA mains onto private properties. They will reach out to residents who utilize the public water system via mailings. This project will not involve those who utilize wells. RWA has already begun to inventory accounts and will, with homeowners' assistance, evaluate infrastructure on private properties. Stay tuned for more information as the RWA rolls out this new program.

The annual Woodbridge Memorial Day Ceremony will be held Monday, May 29 at 11 am at the VFW monument in front of the Center Building on Meetinghouse Lane. For details, please see page 2.

Please remember to add the Amity Budget Referendum to your calendars. The referendum will be held Tuesday, May 2, from 6 am to 8 pm at the Center Building gym. This is your chance to vote on the regional school district's proposed spending plan.

Another item for your calendars is an event planned by the Governor's office to honor Vietnam Veterans. This ceremony will be held in Woodbridge on July 17 and will feature special citations to all residents who are Vietnam veterans.

Please feel free, as always, to reach out to me at 203-389-3401 or bheller@woodbridgect.org.

—First Selectman Beth Heller
